

MOCK TEST PAPER - 1
FOUNDATION COURSE
PAPER – 1: PRINCIPLES AND PRACTICE OF ACCOUNTING

ANSWERS

1. (a) 1. **True** - The balance represents the cash physically in existence and is therefore an asset.
 2. **False** - Finished goods are normally valued at cost or net realizable value whichever is lower.
 3. **False** - Current year subscription shall be shown in the credit side of the income and expenditure account and not in the balance sheet, as it is not a capital item.
 4. **False** - When shares are forfeited, the share capital account is debited with called up capital of shares forfeited and the share forfeiture account is credited with amount received on shares forfeited.
 5. **True** - Discount at the time of retirement of a bill is a gain for the drawee and loss for the drawer.
 6. **True** - Yes they are types of subsidiary books which is alternate to the journals.

(b) Limitations which must be kept in mind while evaluating the Financial Statements are as follows:

- The factors which may be relevant in assessing the worth of the enterprise don't find place in the accounts as they cannot be measured in terms of money.
- Balance Sheet shows the position of the business on the day of its preparation and not on the future date while the users of the accounts are interested in knowing the position of the business in the near future and also in long run and not for the past date.
- Accounting ignores changes in some money factors like inflation etc.
- There are occasions when accounting principles conflict with each other.
- Certain accounting estimates depend on the sheer personal judgement of the accountant.
- Different accounting policies for the treatment of same item adds to the probability of manipulations.

Note: In the above solution, transfer of ownership is assumed to take place at the time of delivery of goods. If it is assumed that transfer of ownership takes place on the date of invoice, then Rs. 12,000 goods delivered in March 2021 for which invoice was received in April, 2021, would be treated as purchases of the accounting year 2020-2021 and thus excluded. Similarly, goods dispatched in March, 2021 but invoiced in April, 2021 would be excluded and treated as sale of the year 2020-2021.

$$\text{Average due date} = \text{Base date} \pm \frac{\text{Total Product}}{\text{Total Amount}}$$

$$= 8\text{th September} + 1,26,700/2,350$$

$$= 8\text{th September} + 54 \text{ days} = 1\text{st November}$$
