## MOCK TEST PAPER 1

## FOUNDATION COURSE

## PAPER - 1: PRINCIPLES AND PRACTICE OF ACCOUNTING

## SUGGESTED ANSWERS/HINTS

1. (a) (i) False: If the effect of errors committed cancel out, the errors will be called compensating errors and the trial balance will agree.
(ii) False: Accrual concept implies accounting on 'due' or 'accrual' basis. Accrual basis of accounting involves recognition of revenues and costs as and when they accrue irrespective of actual receipts or payments.
(iii) False: Consignment account is a nominal account.
(iv) True: In case the due date of a bill falls after the date of closing the account, then no interest is allowed for that. However, interest from the date of closing to such due date is written in "Red-Ink" in the appropriate side of the 'Account current'. This interest is called Red-Ink Interest.
(v) True: When there is no partnership deed then the provisions of the Indian Partnership Act are to be applied for settling the dispute. Interest on loan is payable @ 6\% p.a. as per Indian Partnership Act.
(vi) False: When shares are forfeited, the share capital account is debited with called up capital of shares forfeited and the share forfeiture account is credited with amount received on shares forfeited.
(b) Change in accounting policy may have a material effect on the items of financial statements. For example, if cost formula used for inventory valuation is changed from weighted average to FIFO, or if interest is capitalized which was earlier not in practice, or if proportionate amount of interest is changed to inventory which was earlier not the practice, all these may increase or decrease the net profit. Unless the effect of such change in accounting policy is quantified, the financial statements may not help the users of accounts. Therefore, it is necessary to quantify the effect of change on financial statement items like assets, liabilities, profit/loss.
The examples in this regard may be given as follows:
Omega Enterprises revised its accounting policy relating to valuation of inventories to include applicable production overheads.
(c) (i) Error of Commission.
(ii) Error of Omission.
(iii) Error of Omission.
(iv) Error of Commission.
(v) Error of Principle.
