## MOCK TEST PAPER 1

## FOUNDATION COURSE

## PAPER - 1: PRINCIPLES AND PRACTICE OF ACCOUNTING

## ANSWERS

1. (a) (i) True - Conservatism states that the accountant I entity should not anticipate any future income. However, they should provide for all possible I probable losses. Imprudent use of concept of conservatism may lead to understatement of income and assets.
(ii) True - In the early periods of useful life of a fixed assets, repairs and maintenance expenses are relatively low because the asset is new. Whereas in later periods, as the asset become old, repairs and maintenance expenses increase continuously. Under written down value method, depreciation charged is high in the initial period and reduces continuously in the later periods. Thus, depreciation and repair and maintenance expenses become more or less uniform throughout the useful life of the asset
(iii) True - Discount at the time of retirement of a bill is a gain for the drawee and loss for the drawer.
(iv) False -If individual life policies are taken in the name of the partners and premium is paid from the firm, then retiring partner is entitled to surrender value of all the partners policies.
(v) False -When shares are forfeited, the share capital account is debited with called up capital of shares forfeited and the share forfeiture account is credited with amount received on shares forfeited.
(vi) False -Goods taken by the proprietor for personal use should be credited to Purchases Account as less goods are left in the business for sale.
(b) The basic considerations in distinction between capital and revenue expenditures are:
(i) Nature of business: For a trader dealing in furniture, purchase of furniture is revenue expenditure but for any other trade, the purchase of furniture should be treated as capital expenditure and shown in the balance sheet as asset.
(ii) Recurring nature of expenditure: If the frequency of an expense is quite often in an accounting year then it is said to be an expenditure of revenue nature while non-recurring expenditure is infrequent in nature and do not occur often in an accounting year.
(iii) Purpose of expenses: Expenses for repairs of machine may be incurred in course of normal maintenance of the asset. Such expenses are revenue in nature. On the other hand, expenditure incurred for major repair of the asset so as to increase its productive capacity is capital in nature.
(iv) Materiality of the amount involved: Relative proportion of the amount involved is another important consideration in distinction between revenue and capital.
(c) (i) Error of Principle.
(ii) Error of Omission.
(iii) Error of Commission.
(iv) Error of Omission.
(v) Error of Commission
2. (a)

Bank Reconciliation Statement of Satyam Traders as on 31st March, 2021

| Particulars | Amount | Amount |
| :--- | ---: | ---: |
| Balance as per Cash Book |  | $4,12,200$ |
| Add: |  |  |
| Mistake in bringing forward ₹18,500/-debit | 37,000 |  |
| Balance as credit balance on 22nd March |  |  |
| Cheques issued but not presented | 13,500 |  |
| Issued ₹ ₹42,000 less cashed ₹ 28,500 $=$ |  |  |
| ₹13,500/- | 35,000 |  |
| Dividend directly collected but not entered in cash book | $1,29,000$ |  |
| Cheques recorded twice in the cash book | 25,000 |  |
| Wrongly credited cheque by bank | 500 |  |
| Discount amount wrongly entered in bank column |  | $2,40,000$ |
| TOTAL | 12,000 |  |
| Less: | 85,000 |  |
| Wrong casting in cash book on12th March, 2021 | 20,000 |  |
| Cheque issued and not entered in the Bank Column | 5,000 |  |
| Fire Insurance premium paid directly by bank | 2,500 |  |
| Cheque dishonored not recorded in books | 2,000 |  |
| Credit card payment not recorded in cash book | 200 |  |
| Cheque wrongly deposited by bank in savings account |  | $1,26,700$ |
|  |  | $5,25,500$ |
| Bank charges debited not recorded in cash book |  |  |
| TOTAL |  |  |
| Balance as per the Passbook |  |  |
| No effects of cheque deposit directly and dishonored in the same |  |  |
| Month. Alternatively figure of ₹32,000/- can be added as well as |  |  |
| deducted from balance as per cash book. |  |  |

(b) Calculation of depreciation for $5^{\text {th }}$ year

Depreciation per year charged for four years = ₹ $50,00,000 / 10=₹ 5,00,000$
WDV of the machine at the end of fourth year $=₹ 50,00,000-₹ 5,00,000 \times 4=₹ 30,00,000$.
Depreciable amount after revaluation $=₹ 30,00,000+₹ 2,00,000=₹ 32,00,000$
Remaining useful life as per previous estimate $=6$ years
Remaining useful life as per revised estimate $=8$ years
Depreciation for the fifth year and onwards $=₹ 32,00,000 / 8=₹ 4,00,000$.
3. (a)

Calculation of Average Due Date
(Taking 4 ${ }^{\text {th }}$ May, 2021 as the base date)

| Date of bill | Term | Due date | Amount <br> $₹$ | No. of days from <br> the base date i.e. <br> May 4,2021 | Product <br> $₹$ |
| :--- | :--- | :--- | :---: | :---: | ---: |
| 2021 |  | 2021 |  |  |  |
| 1th $^{\text {st }}$ March | 2 months | $4^{\text {th }}$ May | 20,000 | 0 | 0 |
| $10^{\text {th }}$ March | 3 months | $13^{\text {th }}$ June | 15,000 | 40 | $6,00,000$ |
| $5^{\text {th }}$ April | 2 months | $8^{\text {th }}$ June | 10,000 | 35 | $3,50,000$ |
| $2^{\text {2rd }}$ April | 1 month | $26^{\text {th }}$ May | 18,750 | 22 | $4,12,500$ |
| $10^{\text {th }}$ May | 2 months | $13^{\text {th }}$ July | $\underline{25,000}$ | 70 | $\underline{17,50,000}$ |

Average due date=Base date+ Days equal to $\frac{\text { Total of products }}{\text { Total amount }}$

$$
=4^{\text {th }} \text { May, } 2021+\frac{₹ 31,12,500}{88,750}=4^{\text {th }} \text { May, } 2021+35 \text { days }=8^{\text {th }} \text { June, } 2021
$$

(b) Mr. Lalit in Account Current with Mr. Sumit
(Interest upto 15th March, 2021 @ 10\% p.a.)

|  |  |  |
| 50,000 |  |  |

## Working Note:

Calculation of amount to be transferred to Capital Reserve
Forfeited amount per share = ₹ $75,000 / 2500 \quad=₹ 30$
Loss on re-issue = ₹ $70-₹ 60=$ ₹ 10
Surplus per share re-issued ₹ 20
Transferred to capital Reserve ₹ $20 \times 2000=$ ₹ 40,000 .

(c) The preparation of trial balance has the following objectives:

1 Checking of the arithmetical accuracy of the accounting entries: Trial Balance enables one to establish whether the posting and other accounting processes have been carried out without committing arithmetical errors. In other words, the trial balance helps to establish the arithmetical accuracy of the books.
2. Basis for preparation of financial statements: Trial Balance forms the basis for preparing financial statements such as the Income Statement and the Balance Sheet. The Trial Balance represents all transactions relating to different accounts in a summarized form for a particular period. In case, the Trial Balance is not prepared, it will be almost impossible to prepare the financial statements to know the profit or loss made by the business during a particular period or its financial position on a particular date.
3. Summarized ledger: Trial Balance contains the ledger balances on a particular position of a particular account can be judged simply by looking at the Trial Balance. The ledger may be seen only when details regarding the accounts are required

## Or

## Rules regarding posting of entries in the ledger

1. Separate account is opened in ledger book for each account and entries from journal are posted to respective account accordingly.
2. It is a practice to use words 'To' and 'By' while posting transactions in the ledger.
3. The concerned account debited in the journal should also be debited in the ledger but reference should be of the respective credit account.
