TIME OF SUPPLY

Question 1: Explain Time of Supply of goods under direct charge/normal charge/forward charge.

Answer: Time of supply of goods Section 12 (1) & 12 (2).

Time of supply means the particular date when a registered person shall have the liability to pay GST but GST has to be paid in the subsequent month on the date applicable to such registered person.

The time of supply of goods shall be the earlier of the following dates, namely:—

- (a) the date of issue of invoice by the supplier or the last date on which he is required, to issue the invoice with respect to the supply.

e.g. If invoice is issued on 28th July 2024 and goods are delivered on 31st July 2024 and payment is received on 10th August 2024, TOS is 28th July 2024 but if invoice is issued on 01st August 2024, TOS is 31st July 2024.

Question 2: Explain TOS in case of additional consideration.

Answer: TOS in case of Additional consideration Section 12 (6).

The time of supply to the extent it relates to an addition in the value of supply by way of interest, late fee or penalty for delayed payment of any consideration shall be the date on which the supplier receives such addition in value, e.g. Mr. X sold certain goods on credit and because of delay beyond the permitted time, interest of ₹ 10,000 was charged, such additional consideration shall also be considered to be value of supply and TOS shall be the time when such payment is received.

Question 3: Explain TOS in case of supply of voucher of goods.

Answer: Supply of Voucher of Goods Section 12 (4).

In case of supply of vouchers by a supplier, the time of supply shall be—

- (a) the date of issue of voucher, if the supply is identifiable at that point; or
(b) the date of redemption of voucher, in all other cases.

As per section 2 (118), "voucher" means an instrument where there is an obligation to accept it as consideration for a supply of goods. Further the identities of their potential suppliers including the terms and conditions of use of such instrument may be indicated either on the voucher or some other documents.

Example 1: ABC Limited sells food coupons to a company, which gives these to its employees as part of the agreed perquisites. The coupons can be redeemed for purchase of any item of food /other goods in the outlets. As the supply against which the coupon will be redeemed is not known on the date of the sale of the coupon, the time of supply of the coupon will be the date on which the employee redeems it against food /other goods of his choice.

Example 2: With each purchase of a large pizza during the Christmas week from DOMINOS Pizza, one can buy a voucher for ₹20 which will be redeemable till 5 Jan for a small pizza. As the supply against which the voucher will be redeemed is known on the date of the sale, the time of supply is the date of issue of the voucher.

Question 4: Explain Time of Supply of services under direct charge/normal charge/forward charge.

Answer: Time of supply of services Section 13 (1) & (2).

The liability to pay tax on services shall arise at the time of supply. Time of supply of services shall be the date of invoice or the date of receiving payment whichever is earlier but if invoice is not issued within 30 days of supply of service, TOS shall be the date of supply of service or the date of payment whichever is earlier, e.g. If services are rendered on 23rd July, 2024 and invoice issued 10th August, 2024 and payment received 20th September, 2024, TOS shall be 10th August 2024 but if invoice is issued on 27th August 2024, TOS shall be 23rd July, 2024.

Question 5: Explain Payments in excess of amount of invoice.

Answer: Payments in excess of amount of invoice

Wherever the supplier of service receives a payment up to ₹1,000 in excess of the amount indicated in the invoice, the time of supply to the extent of such excess amount, at the option of the provider of taxable

service, shall be determined on the basis of invoice or completion of service, as the case may be, rather than payment.

Example: A telephone company receives ₹5000 against an invoice of ₹4800. The excess amount of ₹200 can be adjusted against the next invoice. The company has the option to take the date of the next invoice as the time of supply of service in relation to the amount of ₹200 received in excess against the earlier invoice

Question 6: Explain meaning of receiving of payment.

Answer: Meaning of receiving payment

Date of receiving payment shall be date on which the payment is entered in the books of accounts or date on which payment is credited to the bank account of the person liable to pay tax, whichever is earlier. e.g. If payment is entered in the books on 10.07.2024 and it is credited in the bank account on 16.07.2024, date of receiving payment shall be 10.07.2024 but if it was entered in the books of accounts on 20.07.2024, date of receiving payment shall be 16.07.2024.

Question 7: Explain TOS in case of additional consideration.

Answer: TOS in case of Additional consideration Section 13 (6).

The time of supply to the extent it relates to an addition in the value of supply by way of interest, late fee or penalty for delayed payment of any consideration shall be the date on which the supplier receives such addition in value, e.g. Mr. X has given certain services on credit and because of delay beyond the permitted time, interest of ₹ 10,000 was charged, such additional consideration shall also be considered to be value of supply and TOS shall be the time when such payment is received.

Question 8: Explain TOS in case of supply of voucher of services.

Answer: Supply of Voucher Section 13 (4).

In case of supply of vouchers by a supplier, the time of supply shall be—

- (a) the date of issue of voucher, if the supply is identifiable at that point; or
- (b) the date of redemption of voucher, in all other cases.

As per section 2 (118), "voucher" means an instrument where there is an obligation to accept it as consideration for a supply of services. Further the identities of their potential suppliers including the terms and conditions of use of such instrument may be indicated either on the voucher or some other documents.

Example: Best Hospitality Services enters into agreement with Drive Marketing Ltd by which Drive Marketing Ltd. markets Best Hospitality Services' hotel rooms and sells coupons / vouchers redeemable for a discount against stay in the hotel. As the supply against which the voucher will be redeemed is identifiable, the time of supply of the voucher will be its date of issue.

VALUE OF SUPPLY

Question 1: Explain Value of Supply under GST.

Answer: Value of taxable supply Section 15

As per section 15(1), The value of a supply of goods or services or both shall be the transaction value, which is the price actually paid or payable for the said supply of goods or services or both where the supplier and the recipient of the supply are not related and the price is the sole consideration for the supply.

As per section 15 (2), The value of supply shall include—

(a) any taxes, duties, cesses, fees and charges levied under any law for the time being in force other than GST, if charged separately by the supplier; e.g. Mr. X imported certain goods and has paid basic custom duty and IGST, in this case IGST shall be charged on the total of value of goods plus custom duty i.e. IGST shall be charged even on the amount of custom duty.

Example: Mr. X imported certain goods of the value of ₹ 1,00,000 and paid basic custom duty 10% and IGST 20%, in this case tax treatment shall be as given below:

Value of goods	1,00,000
Add: Basic Custom Duty 10%	10,000
Transaction Value	1,10,000
IGST 20%	22,000

(b) Any amount that the supplier is liable to pay in relation to such supply but which has been incurred by the recipient of the supply and not included in the price actually paid or payable for the goods or services or both.

Example: Samriddhi Advertisers conceptualised and designed the advertising campaign for a new product launched by New Moon Pvt Ltd. for a consideration of ₹ 5,00,000. Samriddhi Advertisers owed ₹ 20,000 to one of its vendors in relation to the advertising service provided by it to New Moon Pvt Ltd. Such liability of Samriddhi Advertisers was discharged by New Moon Pvt Ltd. New Moon Pvt Ltd. delayed the payment of consideration and thus, paid ₹ 15,000 as interest. Assume the rate of GST to be 18%.

Determine the value of taxable supply made by Samriddhi Advertisers.

Answer:

Computation of value of taxable supply

Particulars	₹
Service charges	5,00,000
Payment made by New Moon Pvt. Ltd to vendor of Samriddhi Advertisers [Liability of the supplier being discharged by the recipient, is includible in the value in terms of section 15(2)(b)]	20,000
Interest for delay in payment of consideration [Includible in the value in terms of section 15(2)(d) – Refer note below] (rounded off)	12,712
Value of taxable supply	5,32,712

Note: The interest for delay in payment of consideration will be includible in the value of supply but the time of supply of such interest will be the date when such interest is received in terms of section 13(6). Such interest has been assumed to be inclusive of GST and thus, the value has been computed by making back Calculations $15,000 / 118 \times 100 = 12,712$. It is also possible to assume the interest to be exclusive of GST. In that case, the value of supply will work out to be ₹ $5,00,000 + 20,000 + 15,000 = 5,35,000$.

(c) incidental expenses, including commission, packing or weightment charges, charged by the supplier to the recipient of a supply and any amount charged for anything done by the supplier in respect of the supply of goods or services or both at the time of, or before delivery of goods or supply of services.

Example: AKJ Foods Pvt. Ltd. gets an order for supply of processed food from a customer. The customer wants the consignment tested for gluten or specified chemical residues. AKJ Foods Pvt. Ltd. does the testing and charges a testing fee for the same from the customer. AKJ Foods Pvt. Ltd. argues that such testing fees

should not form part of the consideration for the sale as it is a separate activity. Is his argument correct in the light of section 15?

Answer: Section 15 mandates the addition of certain elements to transaction value to arrive at taxable value. Section 15 specifies that amount charged for anything done by the supplier in respect of the supply at the time of or before delivery of goods or supply of services shall be included in taxable value. Since AKJ Foods Pvt. Ltd. does the testing before the delivery of goods, the charges therefor will be included in the taxable value. Therefore, AKJ Foods Pvt. Ltd.'s argument is not correct. The testing fee should be added to the price to arrive at taxable value of the consignment.

(d) interest or late fee or penalty for delayed payment of any consideration for any supply; and

Example: ABC limited sold certain goods for ₹ 10,00,000 plus GST 2,00,000 on credit and payment was received by the company after 6 months and the company has received interest ₹ 15,000, in this case ₹ 15,000 shall be considered to be additional consideration and GST is payable.

(e) Any subsidy except subsidies given by the Government.

Example: A philanthropic association makes a substantial donation each year to a reputed private management institution to subsidise the education of low income group students who have gained admission there. The fee for these individuals is reduced thereby, coming to ₹3 lakh a year compared to ₹5 lakh a year for other students.

What would be the taxable value of the service of coaching and instruction provided by the institution?

Answer: As per section 15, the value of a supply includes subsidies directly linked to the price, excluding State Government and Central Government subsidies. In this case, the subsidy is not from the Government but is from a philanthropic association. Therefore, the subsidy is to be added back to the price to arrive at the taxable value, which comes to ₹5 lakh a year.

Question 2: Explain Treatment of Discount while computing Transaction Value.

Answer: Discount while computing Transaction Value Section 15(3)

If any supplier has given any discount at the time of supply, it will be allowed to be deducted. Further discount so allowed should be shown in the invoice.

If discount is given after the supply it will also be allowed but there should be a specific agreement and such agreement should be made before or at the time of supply.

Adjustment for such discount should be made through credit note. The supplier can reduce his GST liability on the basis of credit note and the recipient should reduce tax credit already taken by him.

Example: ABC Ltd. sold goods of ₹100 lakhs to XYZ Ltd. on 01-07-2024 and allowed discount 10% GST rate 20%. The supplier has agreement that discount will be 20% if the buyer purchases goods of additional ₹100 lakhs upto 30-09-2024. In this case tax treatment shall be as given below:

Value of supply	100 lakh
Less: Discount @ 10%	(10 lakh)
Balance	90 lakh
GST @ 20%	18 lakh

If the buyer has purchased goods of additional ₹100 lakh on 30-09-2024, the supplier shall issue a credit note of ₹10 lakh + GST ₹2 lakh and shall report it in GSTR-1 for the month of September 2024 and shall reduce his tax liability by ₹2 lakh. At the same time, buyer shall increase his tax liability by ₹2 lakh for the month of September 2024.

Example: Crunch Bakery Products Ltd sells biscuits and cakes through its dealers, to whom it charges the list price minus standard discount and pays GST accordingly. When goods remain unsold with the dealers, it offers additional discounts on the stock as an incentive to push the sales.

Can this additional discount be reduced from the price at which the goods were sold and concomitant tax adjustments made?

Answer: The discounts were not known or agreed at the time of supply of goods to the dealers. Therefore, such discounts cannot be reduced from the price on which tax had been paid in terms of section 15(3).

(4) Where the value of the supply of goods or services or both cannot be determined under sub-section (1), the same shall be determined in such manner as may be prescribed (such rules are not covered in syllabus Rule No. 27 to 35).

(5) The value of such supplies as may be notified by the Government on the recommendations of the Council shall be determined in such manner as may be prescribed.

TCS under Income-Tax Act, 1961 not includible in the taxable value for the purpose of GST:

The CBIC vide Circular No. 76/50/2018 GST dated 31.12.2018 (amended vide corrigendum dated 7.03.2019) has clarified that for the purpose of determination of value of supply under GST, tax collected at source (TCS) under the provisions of the Income Tax Act, 1961, shall not be included in the value because it is not a tax in connection with the goods sold. (Rather it is Income Tax)

CLARIFICATIONS

Buy one get one free offer

Sometimes, companies announce offers like ‘*Buy One, Get One free*’ For example, „buy one soap and get one soap free” or „Get one tooth brush free along with the purchase of tooth paste”. It may appear at first glance that in case of offers like „Buy One, Get One Free”, one item is being „supplied free of cost” without any consideration. In fact, it is not an individual supply of free goods but a case of two or more individual supplies where a single price is being charged for the entire supply. It can at best be treated as *supplying two goods for the price of one*.

Answer:

(a) Amendment/ Correction

Tables 9, 10 and 11(II) of GSTR-1 provide for amendments in details of taxable outward supplies furnished in earlier periods.

Table 9 is used to report correction of table 4, 5 and 6 of GSTR-1.

Table 10 is used to report correction of table 7 of GSTR-1.

Table 11(II) is used to report correction of table 11(I) of GSTR-1.

The maximum time limit within which such amendments are permissible is earlier of the following dates:

Question 4: Explain classification of Goods/Services under GST.

Answer: The exercise of placing the various goods/services under the various groups or sub-groups is known as 'Classification' of a product/services and such classification is given in GST Tariff and it is called Harmonised system of Nomenclature. All the goods are divided into **98 categories** which are called chapters. Each product given in the GST Tariff has a specific **8 digit code** number **first 2 digit refer to Chapter next 2 heading next 2 sub-heading and last 2 are specific for the product** e.g. Code No. for Tobacco is 2401 20 50 and for mobile phone is 8517 12 10 and for Chocolate is 1806 90 10 (**Nomenclature means** a system of naming things)

All services are covered in chapter 99 and each service has a code of 6 digit which is called services accounting code.

HSN or HS (Harmonized Commodity Description and Coding System) is a standardized system of nomenclature of different goods developed by World Customs Organization, which is accepted globally. HSN uses 6-digits uniform codes to classify different goods. India uses eight-digits codes for more specific and precise classification.

If turnover is more than 5 crores, supplier shall be required to mention six digit of HSN.

Example: The turnovers of Yellow Lemon Pvt. Ltd., Red Pepper Pvt. Ltd. And Blue Berry Pvt. Ltd. in the previous financial year are ₹ 1.5 crore, ₹ 4.8 crore and ₹ 6 crore respectively. While Yellow Lemon Pvt. Ltd. And Red Pepper Pvt. Ltd. will be required to upload 4 digits of HSN code of the goods sold to registered persons, uploading of 4 digits HSN code will be optional for the two companies when the goods are sold to unregistered persons. Blue Berry Pvt. Ltd. will have to upload 6 digits of HSN code of goods sold by it. This will be the position from 01.04.2021.

7. A registered person shall be allowed to file GSTR-3B for a maximum period of 3 year from the due date of furnishing the said GSTR-3B.

Question 6: Explain QRMP Scheme.

Answer:

QRMP Scheme

If any registered person has turnover upto 5 crores, he shall have the option to file GSTR – 3B on quarterly basis but tax has to be paid every month in the manner given below:

1. Fixed Sum Method

- (i) thirty five per cent. of the tax liability paid by debiting the electronic cash ledger in the return for the preceding quarter where the return is furnished quarterly; or
- (ii) the tax liability paid by debiting the electronic cash ledger in the return for the last month of the immediately preceding quarter where the return is furnished monthly:

Provided that no such amount may be required to be deposited-

- (a) for the first month of the quarter, where the balance in the electronic cash ledger or electronic credit ledger is adequate for the tax liability for the said month.
- (b) for the second month of the quarter, where the balance in the electronic cash ledger or electronic credit ledger is adequate for the cumulative tax liability for the first and the second month of the quarter.

Provided further that registered person shall not be eligible for the fixed sum method unless he has furnished the return for a complete tax period preceding such month.

“A complete tax period” means a tax period in which the person is registered from the first day of the tax period till the last day of the tax period.

2. Self Assessment Method

Such registered person has the option to pay tax on estimated basis as per his own assessment but in that case interest shall be charged on any short fall.

Example 1: A registered person, who has opted for QRMP Scheme, has paid a total amount of ₹100/- in cash as tax liability in the previous quarter of October to December. He opts to pay tax under fixed sum method. He therefore pays ₹35/- each on 25th February and 25th March for discharging tax liability for the first 2 months of quarter viz. January and February.

In his return for the quarter, it is found that liability based on the outward and inward supplies, for January was ₹40/- and for February it was ₹42/-. However, no interest would be payable for the lesser amount of tax i.e. ₹5 and ₹7 respectively. But if he has paid tax on estimated basis, in that case interest shall be charged on ₹ 5 and ₹7.

Question 7: Explain Manner of opting for furnishing quarterly return.

Answer: Rule 61A

Option for submitting quarterly return

Option can be exercised from the 1st day of the second month of the preceding quarter till the last day of the first month of the quarter for which the option is being exercised: e.g. Mr. X is filing return on monthly basis in April 2024 but now he decides to file return on quarterly basis, in this case he can exercise the option from 1st May 2024 upto 31st July 2024 for filing return on quarterly basis for the quarter starting from July to Aug 2024.

Option for submitting monthly return

Option can be changed from the first month of the quarter, succeeding the quarter during which change of option has been exercised or succeeding the quarter in which his aggregate turnover exceeds 5 crore rupees. A registered person shall not be eligible to opt for furnishing quarterly return in case the last return due on the date of exercising such option has not been furnished. E.g. Mr. X is filing return of monthly basis but he opts to file quarterly return from the quarter October to December and option is exercised on 24th October 2024 but till that date he has not filed his GSTR-3B for the month of September 2024, in this case he will not be allowed to opt for filing of quarterly return.

Question 8: Discuss the provisions of Section 39(9) of the CGST Act, 2017, relating to rectification of errors/ omissions in GST returns already filed and also state its exceptions. State the time limit for making such rectification.

Answer: As per Section 39(9) Subject to the provisions of sections 37 and 38, if any registered person after furnishing a return GSTR 3B discovers any omission or incorrect particulars therein, other than as a result of scrutiny, audit, inspection or enforcement activity by the tax authorities, he shall rectify such omission or incorrect particulars in such form and manner as may be prescribed, subject to payment of interest under this Act (earlier in GSTR 3, there were tables for rectification of the error in the earlier return just like GSTR 1 but now there is no such table in GSTR 3B hence rules will be framed for rectification of error) Rectification of any omission or incorrect particulars shall be allowed upto 30th day of November following the end of the financial year, or the actual date of furnishing of relevant annual return, whichever is earlier.

Question 9: Explain Statement and return by composition dealer.

Answer: Section 39/Rule 62

Every registered person paying tax under section 10 shall-

- (i) furnish a statement, every quarter or, as the case may be, part thereof, containing the details of payment of self-assessed tax in **FORM GST CMP-08**, till the 18th day of the month succeeding such quarter; and
- (ii) furnish a return for every financial year or, as the case may be, part thereof in **FORM GSTR-4**, till the 30th day of April following the end of such financial year, electronically through the common portal.

Every such registered person shall discharge his liability towards tax or interest by debiting the electronic cash ledger.

A registered person opting to withdraw from the composition scheme at his own motion or where option is withdrawn at the instance of the proper officer shall, where required, furnish a statement in **FORM GST CMP-08** for the period for which he has paid tax under the composition scheme till the 18th day of the month succeeding the quarter in which the date of withdrawal falls and furnish a return in **FORM GSTR-4** for the said period till the 30th day of April following the end of the financial year during which such withdrawal falls.

Particulars of GSTR-4 (Annually) shall be as given below:

Table No. 1. GSTIN

Table No. 2. Legal name / Trade name.

Table No. 3. Aggregate Turnover during the preceding financial year.

Table No. 4. Inward supplies including supplies on which tax is to be paid reverse charge.

Table No. 5. Tax on outward supplies made.

Table No. 6. Consolidated statement of advances paid/advance adjustment on account of receipt of supply.

Table No. 7. TDS Credit received (Not covered in syllabus)

Table No. 8. Tax Payable and paid

Table No. 9. Interest, Late fee payable and paid

Answer: Interest on delayed payment of tax Section 50/ Rule 88B

(1),(2) If any person has delayed payment of GST, interest shall be charged @ 18% p.a. from the day subsequent to the last day but upto the date of payment. Further interest shall be paid on the amount paid through cash ledger e.g. Mr. X has paid GST for the month of July 2024 on 30-08-2024 and output tax ₹10 lakh, ITC ₹6 lakh and amount paid in cash ₹4 lakh, in this case interest shall be $4,00,000 \times 18\% \times 10/365 = 1,972.60 = 1,973$

(3) If person has availed ITC wrongly, interest shall be charged only on the amount which has been utilised by him and interest shall be for the period the amount has been utilised by him e.g. for the month of July 2024 Mr. X has output tax liability ₹20 lakh and tax credit ₹22 lakh (out of which wrongly availed is ₹10 lakh). He has discharged his GST liability on 20-08-2024, in this case wrongly utilised ITC shall be ₹8 lakh (because correctly availed ITC ₹12 lakh). If he has paid this amount after 30 days, interest shall be charged @ 18% p.a. for 30 days on wrongly utilised amount i.e. ₹8 lakh.

Question 5: Explain Electronic Liability Ledger

Answer: Electronic Liability Ledger Rule 85

For every registered person electronic liability register shall be maintained on the common portal and liability to pay GST shall be debited to this ledger on the basis of GSTR-1 filed by him. Such liability can be paid either through electronic credit ledger or through electronic cash ledger.

The amount payable on reverse charge basis, or the amount payable under section 10, any amount payable towards interest, penalty, fee or any other amount under the Act shall be paid by debiting the electronic cash ledger.

Example: ABC limited has balance of ₹ 10,00,000 in credit ledger and company has to pay interest/penalty ₹50,000, in this case it cannot be adjusted from credit ledger rather it has to be paid in cash.

Example: ABC Limited has taken services from XYZ limited ₹ 10,00,000 + GST ₹ 1,00,000 but tax is payable under reverse charge and ABC limited has balance in credit ledger ₹10,00,000 in this case, ABC limited has to pay ₹1,00,000 in cash (and it cannot be adjusted from balance in credit ledger because it is input tax) and ABC limited shall be allowed ITC of ₹1,00,000 and balance in credit ledger shall be ₹11,00,000. ITC can be adjusted in payment of Output tax not Input Tax.

Question 6: Explain Electronic credit ledger.

Answer: Electronic Credit Ledger Rule 86.

Electronic credit ledger shall be maintained for every registered person on the common portal. Input tax credit available to him on the basis of GSTR-2B shall be credited to this ledger. The registered person can utilise such credit as per provisions of section 49(5) but it can not be used for payment of other dues or for payment of any tax under reverse charge. The balance available in this ledger can be carried forward for unlimited period but its refund is not allowed except in two cases:

- (i) Zero rated supply
- (ii) Inverted Rate structure i.e. Tax on inputs is higher than the tax on outputs

Question 7: Who can impose restrictions on utilization of input tax credit (ITC) available in the electronic credit ledger and under what circumstances, can restrictions be imposed under the CGST Rules 2017?

Answer: Conditions of use of amount available in electronic credit ledger Rule 86A

The Commissioner or an officer authorised by him in this behalf, not below the rank of an Assistant Commissioner, having reasons to believe that credit of input tax available in the electronic credit ledger has been fraudulently availed or is ineligible can impose restrictions on utilization of ITC in the following cases—

- (i) The person availing ITC do not possess tax invoice / debit note or other similar document.
- (ii) The person availing ITC has availed ITC without receipt of goods or services.
- (iii) The supplier has not paid tax to the Govt.
- (iv) Tax invoice has been issued by a person who is non-existent or is not conducting business from the registered place to business.
- (v) The registered person who has availed ITC is non-existent or is not conducting business from the registered place.

The Commissioner or the Officer authorized by him may withdraw the orders passed by him in case he finds it to be bonafide.

If no decision is taken within 1 year, the restriction shall cease to have effect.

Question 8: Restrictions on use of amount available in electronic credit ledger.

Answer: Rule 86B A registered supplier can use maximum upto 99% of output tax from ITC but this condition is applicable only for those suppliers whose monthly taxable turnover (other than exempt supply and zero-rated supply) is exceeding ₹50 lakh e.g. Mr. X has output tax liability for the month of July 100 lakh and ITC ₹100 lakh, in this case output tax of ₹99 lakhs can be adjusted from ITC and balance ₹1 lakh has to be paid through cash ledger i.e. atleast 1% of output tax has to be paid through cash ledger.

The rule shall not be applicable in the following cases:

- (i) Where the said person/proprietor/karta/managing director, partners, whole-time directors etc., have paid more than ₹ 1 lakh as income tax in each of the last 2 financial years.
- (ii) If such person has received a refund of more than ₹ 1 lakh in the preceding FY on account of unutilised ITC in case of
 - (i) zero rated supplies made without payment of tax or
 - (ii) inverted duty structure.
- (iii) If output tax paid through the cash ledger is in excess of 1% of the total output tax liability, applied cumulatively, upto the said month in the current FY, this rule will not apply e.g. output tax liability

from April 2024 upto July 2024 is ₹400 lakhs and payment in cash upto June 2024 is ₹20 lakh. In the month of July output tax is ₹100 lakhs and ITC is ₹100 lakh, in this case entire output tax can be adjusted from ITC because atleast 1% of ₹400 lakhs i.e. ₹4 lakh has been paid through cash ledger.

- (iv) This rule shall not apply in case of Government Department, Public Sector Undertaking, Local authority or Statutory body.

(b) **CIN or Challan Identification Number** it is a 17-digit number (14-digit CPIN plus 3-digit Bank code) generated by the bank receiving the payment and is a confirmation that payment has been received and deposited in the concerned Govt. account. CIN is communicated by bank to taxpayer as well as to GSTN. On receiving the intimation, GST portal shall credit the amount to the electronic cash ledger and shall make available a receipt to this effect. Any discrepancy can be reported to the GST portal in GST PMT-07.

(c) **Bank Reference Number** is the transaction number given by the bank for a payment against a Challan

(d) **E-FPB Stands for Electronic Focal Point Branch** These are branches of authorized banks which are authorized to collect payment of GST.

Discrepancy in Liability/credit/cash ledger

The registered person should report any discrepancy through the common portal in GST PMT-04.

Question 10: Are principles of unjust enrichment applicable for payment made under GST?

Answer: Yes, as per Section 49 of the CGST Act, 2017 every person who has paid the tax on goods or services or both under this Act shall, unless the contrary is proved by him, be deemed to have passed on the full incidence of such tax to the recipient of such goods or services or both. In fact a supplier shall charge GST from the recipient and if GST charged is in excess, its incidence is on the recipient hence refund shall be granted to the recipient because otherwise it will be unjust enrichment.

Answer: GST requires too much accounting and complicated procedure for availing ITC and making payment of output tax which may be very difficult for the small tax payers hence composition scheme has been devised which is a simplified scheme and is an optional scheme and particulars are given under **section 10/Rule 3 to 7**. There will be two types of composition schemes and are as given below:

Composition scheme where mainly supply is of goods Section 10(1) and 10(2)

ken as ₹ 75,00,000 in case of following states

7. Sikkim
8. Uttarakhand

The rate shall be as given **under Rule 7** and is as given below:

(i) In case of manufacturer, it will be **0.5% CGST + 0.5% SGST** of Turnover (Taxable + Exempt)

(ii) In case of other suppliers, **0.5% CGST + 0.5% SGST** but it will be computed on **taxable supplies** (Goods and services) instead of total supplies. (now other supplier have been exempted to pay tax on exempt supplies)

(iii) If person is engaged in restaurant services rates shall be **2.5% CGST & 2.5% SGST** of Turnover in the State/Turnover in the Union Territory.

In other words services upto a value of ₹ 5 lakh can be supplied in any case.

If any such person has provided **exempt services** of charging of interest on loan or advance, it will not be included in the turnover computed above.

GST payable by him shall be

100 lakhs x 0.5% CGST + 0.5% SGST	1,00,000
11 lakhs x 2.5% CGST + 2.5% SGST	55,000
5 lakhs x 0.5% CGST + 0.5% SGST	5,000
Turnover excluding exempt services of charging interest on loan or advance	₹116 lakhs

In the subsequent year Mr. X is allowed to supply services of the value of ₹ 11.6 lakh i.e. 10% of 116 lakh or ₹ 5 lakh, whichever is higher

Example 2: Mr. X has turnover of selling goods ₹45 lakhs and turnover of restaurant services ₹4 lakh and exempt services of giving loan or advance ₹6 lakhs, in this case he can provide services other than restaurant services in the subsequent year

Total Turnover	₹49 lakhs
10% of ₹49 lakhs = ₹4.90 lakh or 5 lakh, higher is	₹5 lakhs

Composition scheme where mainly supply is of services Section 10 (2A)

A registered person, not eligible to opt to pay tax under section 10 (1) & 10(2), whose aggregate turnover in the preceding financial year did not exceed fifty lakh rupees, may opt to pay, tax calculated **at 6% (i.e. 3%+3%) of the taxable turnover in State or turnover in Union territory.**

17. For the purposes of determining the tax payable by a person under this section, the expression **"turnover in State or turnover in Union territory"** shall not include the value of following supplies, namely:—

- (i) supplies from the first day of April of a financial year upto the date when such person becomes liable for registration under this Act; and
- (ii) exempt supply of services provided by way of extending deposits, loans or advances in so far as the consideration is represented by way of interest or discount.

Example: Mr. X started trading in goods w.e.f. 01/04/2024 in Delhi and turnover of ₹ 30 lakh was achieved upto 30/06/2024 and he earned interest of ₹ 10 lakh upto 30/06/2024. Turnover from 01/07/2024 to 31/01/2025 was ₹ 110 lakh. His turnover from 01/02/2025 to 15/02/2025 was ₹ 10 lakh. In this case registration is required on 30/06/2024 because interest will also be considered for the purpose of limit of registration but he will be shifted to normal scheme after 15/02/2025 because interest shall not be taken into consideration for the purpose of aggregate turnover for composition scheme. His turnover in the state shall be considered to be 120 lakh for the purpose of charging tax under composition scheme.

Definition

As per section 2(6), "aggregate turnover" means the aggregate value of all taxable supplies (excluding the value of inward supplies on which tax is payable by a person on reverse charge basis), exempt supplies, exports of goods or services or both and inter-State supplies of persons having the same Permanent Account Number, to be computed on all India basis but excludes central tax, State tax, Union territory tax, integrated tax and cess.

As per section 2(47) "exempt supply" means supply of any goods or services or both which attracts nil rate of tax or which may be wholly exempt from tax under section 11, or under section 6 of the Integrated Goods and Services Tax Act, and includes non-taxable supply.

As per section 2(78) "non-taxable supply" means a supply of goods or services or both which is not leviable to tax under this Act or under the Integrated Goods and Services Tax Act.

As per section 2(108) "taxable supply" means a supply of goods or services or both which is leviable to tax under this Act;

Special procedure to be followed by ECOs in respect of supplies of goods through them by composition taxpayers

Earlier, composition suppliers were not permitted to make supply of goods or services through an ECO (who is required to collect TCS). However, GST Council in its 47th meeting held on 28th & 29th June 2022, had in-principle approved the scheme of allowing composition taxpayers to make supplies through ECOs.

Consequently, the Finance Act, 2023 amended section 10, **with effect from 01.10.2023**, to permit the composition suppliers to make supply of goods through such ECOs. Supply of services by composition suppliers through ECO is still not permitted.

Further, **with effect from 01.10.2023**, a special procedure has also been laid down under section 148 to be followed by ECO through which composition supplier supplies goods, vide ***Notification No. 36/2023 CT dated 04.08.2023***. ECOs would be required to declare the supplies made by such composition dealers through them through existing GSTR-8 statement. ECOs would also be mandated to ensure that no inter-State supply through them is allowed in respect of composition dealers by making necessary checks and validations on their system/platform.

Notification No. 36/2023 CT dated 04.08.2023 provides that ECO who is required to collect tax at source under section 52 has been notified as the class of persons who shall follow the following special procedure in respect of supply of goods made through it by the composition suppliers, namely: —

- (i) the ECO shall not allow any inter-State supply of goods through it by the said person;
- (ii) the ECO shall collect tax at source under section 52(1) in respect of supply of goods made through it by the said person and pay to the Government as per provisions of section 52(3); and
- (iii) the ECO shall furnish the details of supplies of goods made through it by the said person in the statement in Form GSTR-8 electronically on the common portal.
- (iv) the ECO shall not allow any inter-State supply of goods through it by the said person;
- (v) the ECO shall collect tax at source under section 52(1) in respect of supply of goods made through it by the said person and pay to the Government as per provisions of section 52(3); and
- (vi) the ECO shall furnish the details of supplies of goods made through it by the said person in the statement in Form GSTR-8 electronically on the common portal.

As per section 2(6), "aggregate turnover" means the aggregate value of all taxable supplies (excluding the value of inward supplies on which tax is payable by a person on reverse charge basis), exempt supplies, exports of goods or services or both and inter-State supplies of persons having the same Permanent Account Number, to be computed on all India basis but excludes central tax, State tax, Union territory tax, integrated tax and cess.

If any person is giving loan or deposit and is earning interest i.e. he is rendering service of lending money, for the purpose of registration, it will be considered to be supply of goods and not supply of services and limit for turnover shall be determined accordingly.

As per section 2(47) "exempt supply" means supply of any goods or services or both which attracts nil rate of tax or which may be wholly exempt from tax under section 11, or under section 6 of the Integrated Goods and Services Tax Act, and includes non-taxable supply;

If Turnover of goods is ₹39,00,000 and interest is ₹2,00,000, turnover is ₹41,00,000 and registration is required.

Question 2: Explain Persons not liable for registration.

Answer: Persons not liable for registration. Section 23

(1) The following persons shall not be liable to registration, namely:—

- (a) any person engaged exclusively in the business of supplying goods or services or both that are not liable to tax or wholly exempt from tax under this Act or under the Integrated Goods and Services Tax Act;
- (b) an agriculturist, to the extent of supply of produce out of cultivation of land.

As per section 2 (7), "agriculturist" means an individual or a Hindu Undivided Family who undertakes cultivation of land—

- (a) by own labour, or
- (b) by the labour of family, or
- (c) by servants on wages payable in cash or kind or by hired labour under personal supervision or the personal supervision of any member of the family;

As per notification no. CT-5/17, if any supplier is supplying goods or services on which GST is to be paid by the recipient under reverse charge, in that case supplier shall not be required to take registration. E.g. reverse charge is applicable on the services provided by an advocate hence even if turnover has exceeded the threshold exemption limit, no registration is required.

Question 3: Explain Registration required irrespective of Turnover.

Answer: As per section 24, The following persons must take registration irrespective of their turnover.

- (i) Persons making any inter-State taxable supply of goods (In case of Inter - State supply of services normal limit of ₹10,00,000/₹20,00,000 shall be applicable.) In case of Inter State supply of goods, registration is required irrespective of turnover but in case of Inter State supply of handicrafts

goods, limit of ₹10,00,000/₹20,00,000/₹40,00,000 shall be applicable. **Handicraft goods:** means the goods made by the craftsmen predominantly by hand even though some machinery may also be used in the process.

- (ii) Casual taxable persons making taxable supply. E.g. Mr. X is a dealer in the state of U.P. and his turnover is ₹ 18,00,000 and he will be selling goods in a trade fair in Delhi, in this case registration is required in the state of Delhi as casual taxable person. If he is selling handicraft goods, registration shall be required only if aggregate turnover of ₹ 40,00,000 has crossed.
- (iii) Non-resident taxable persons making taxable supply.
- (iv) Persons who are required to pay tax under reverse charge.
- (v) Persons who are required to pay tax under section 9 (5), e.g. UBER, OLA CABS etc.
- (vi) Every electronic commerce operator, e.g. Amazon, Flipkart etc.
- (vii) Persons supplying goods through electronic commerce operator shall also be required to take registration but in case of handicrafts goods normal limit shall be applicable.

If any person is selling other goods in that case also, normal exemption limit shall be applicable provided the goods are sold only within the state.

Further in case of services normal exemption limit shall be applicable.

Also normal exemption limit shall be applicable in case of person supplying services through ECO covered u/s 9(5).

- (viii) Input service distributor
- (ix) Every person supplying online money gaming from a place outside India to any person in India.
- (x) Any person supplying OIDAR services from outside India to a person in India provided the person receiving the services is not registered.

2(80A) “online gaming” means offering of a game on the internet or an electronic network and includes online money gaming.

2(80B) “online money gaming” means online gaming in which players pay or deposit money or money's worth, including virtual digital assets, in the expectation of winning money or money's worth, including virtual digital assets, in any event including game, scheme, competition or any other activity or process, whether or not its outcome or performance is based on skill, chance or both and whether the same is permissible or otherwise under any other law for the time being in force.

Example: Prithiviraj of Assam is exclusively engaged in intra-State supply of shoes. His aggregate turnover in the current financial year is ₹ 22 lakh. In view of the discussion in the above paras, the applicable threshold limit for registration for Prithiviraj in the given case is ₹ 40 lakh. Thus, he is not liable to get registered under GST.

If in above example, all other things remaining the same, Prithiviraj is exclusively engaged in supply of pan masala instead of shoes, he will not be eligible for higher threshold limit of ₹ 40 lakh and the applicable threshold limit for registration in that given case will be ₹ 20 lakh. Thus, Prithiviraj will be liable to get registered under GST.

If instead of pan masala, Prithiviraj is exclusively engaged in supply of taxable services, the applicable threshold limit for registration will still be ₹ 20 lakh. Thus, Prithiviraj will be liable to get registered under GST.

Further, if Prithiviraj is engaged in supply of both taxable goods and services, the applicable threshold limit for registration will be ₹ 20 lakh only. Thus, Prithiviraj will be liable to get registered under GST.

Example: Ashoka of Manipur is exclusively engaged in intra-State supply of paper. Its aggregate turnover in the current financial year is ₹ 12 lakh. Since Ashoka is making taxable supplies from Manipur which is a Special Category State, the applicable threshold limit for registration for Ashoka in the given case is ₹ 10 lakh. Thus, he is liable to get registered under GST.

If in above example, all other things remaining the same, Ashoka is exclusively engaged in supply of taxable services instead of paper, the applicable threshold limit for registration will still be ₹ 10 lakh. Thus, Ashoka will be liable to get registered under GST.

Further, if Ashoka is engaged in supply of both taxable goods and services, the applicable threshold limit for registration in that given case will be ₹ 10 lakh only. Thus, Ashoka will be liable to get registered under GST.

Example: Raghav of Assam is exclusively engaged in intra-State supply of readymade garments. Its turnover in the current FY from Assam showroom is ₹ 28 lakh. It has another showroom in Tripura with a turnover of ₹ 11 lakh in the current FY. Since Raghav is engaged in supplying garments from a Special Category State as per section 22, the applicable threshold limit for him gets reduced to ₹ 10 lakh. Further, Raghav is liable to get registered under GST in both Assam and Tripura on his aggregate turnover crossing the threshold limit of ₹ 10 lakh.

Example: Uday Enterprises is engaged in supply of taxable goods in Maharashtra. It also supplies alcoholic liquor for human consumption from Nagaland. Its turnover in the current financial year is ₹ 34 lakh in Maharashtra and ₹ 8 lakh in Nagaland.

Since Uday Enterprises is exclusively engaged in making taxable supplies of goods from Maharashtra, the applicable threshold limit for obtaining registration is ₹ 40 lakh. However, the threshold limit will not be reduced to ₹ 10 lakh in this case, as supply of alcoholic liquor for human consumption from Nagaland (one of the Special Category States) are non-taxable supplies.

In the given case, since the aggregate turnover of Uday Enterprises exceeds the applicable threshold limit of ₹ 40 lakh, it is liable to obtain registration. It will obtain registration in Maharashtra, but is not required to obtain registration in Nagaland as he is not making any taxable supplies from said State.

Answer:

A supplier of both goods and services whose aggregate turnover in a financial year exceeds the prescribed limit is liable to apply for registration within 30 days from the date of becoming liable to registration (i.e., the date of crossing the threshold limit.) in terms of section 22. In case of Meghalaya threshold limit is ₹ 20 lakh.

Further, where the application is submitted within said period, the effective date of registration is the date on which the person becomes liable to registration; otherwise it is the date of grant of registration.

Every registered person who has been granted registration with effect from a date earlier than the date of issuance of registration certificate to him, may issue revised tax invoices within 1 month from the date of issuance of registration certificate in respect of taxable supplies effected during this period i.e. from the effective date of registration till the date of issuance of registration.

Since Luv & Kush Pvt. Ltd. has made the application for registration within 30 days of becoming liable for registration, the effective date of registration becomes the date on which the company becomes liable to registration i.e. 5th September.

Thus, Luv & Kush Pvt. Ltd. may issue revised tax invoices against the invoices already issued during the period between effective date of registration (5th September) and the date of issuance of registration certificate (6th October), within 1 month from 6th October.

Further, Luv & Kush Pvt. Ltd may issue a consolidated revised tax invoice in respect of all taxable supplies made to unregistered dealers during such period. However, in case of inter-State supplies made to unregistered dealers, a consolidated revised tax invoice cannot be issued in respect of all the recipients located in a State, if the value of a supply exceeds ₹ 2,50,000.

Question 2: Explain Deemed supply under schedule I

Answer: Schedule I: Deemed supply i.e. supply without consideration

In order to constitute supply there must be consideration but infact even the supply without consideration is taxable but only in situation given in schedule I and is as given below:

1. Goods without consideration

If any person **has taken ITC** with regard to assets/stock in trade of business and subsequently such assets have been disposed off by him without consideration, it will be considered to be supply and GST shall be payable

Example

(i) A dealer of air-conditioners purchased AC and has taken ITC but after that permanently transfers an air conditioner from his stock in trade, for personal use at his residence. The transaction will constitute a supply as it is a permanent transfer/ disposal of business assets. The only condition is that input tax credit should have been availed on such assets.

(ii) A Chartered Accountant has purchased one laptop for use in his office for ₹ 50,000 and paid Input tax ₹10,000 and tax credit of ₹10,000 was taken but after 3 years it was given by him to one of his friend without consideration, in this case it will be considered to be supply and output GST shall be payable on the transaction value. If transaction value is ₹20,000 and rate of GST is 15%, output GST shall be ₹3,000.

(iii) Mr. X purchased one motor car for the purpose of his business on which no ITC was allowed u/s 17(5) and subsequently it was gifted by him to one of his friends, in this case it will not be considered to be supply because no ITC was taken on it but if it is sold for a consideration, it will be considered to be a supply and GST shall be payable.(as per section 7)

(iv) ABC limited purchased 10 laptops and has taken ITC but after 2 years it was given free of cost to some students, it will be considered to be supply.

2. Services without consideration

If services have been supplied without consideration, it will not be considered to be supply.

Example

3. Goods/services without consideration to Relative / Related person or Deemed Distinct person

Further if goods or services have been supplied to the Relative / Related person or to the deemed distinct person, it will be considered to be supply even if no ITC has been taken.

Example

(i) Mr. X has rendered free services to one of the related persons, in this case it will be considered to be supply but if free services were given to a person who is neither a related a person nor a Distinct person, in that case it will not be considered to be supply.

(ii) Mr. Y has sold certain goods on which no ITC has been taken, to one of the related persons, in this case it will be considered to be supply but if goods were given to a person who is neither a related a person nor a Distinct person, in that case it will not be considered to be supply.

(iii) ABC limited has transferred certain goods on which no ITC was taken, to its own branch in some other State without consideration, it will be considered to be supply.

(iv) Raghubir Fabrics transfers 1000 shirts from his factory (whether ITC taken or not) located in Lucknow to his retail showroom in Delhi so that the same can be sold from there. The factory and retail showroom of Raghubir Fabrics are registered in the States where they are located. Although no consideration is charged, supply of goods from factory to retail showroom constitutes supply.

If goods or services have been given by employer to the employee, they will be considered to be related person and GST shall be payable even if there is no consideration but if value of such goods or services is upto ₹50,000 during a particular financial year, it will not be considered to be supply, however as per section 17(5), any ITC taken with regard to such goods has to be reversed.

Example

(i) ABC limited has gifted certain items valued ₹ 45,000 to its employee Mr. X, it will not be considered to be supply.

(ii) ABC limited has gifted certain items valued ₹ 2,00,000 to its employee Mr. X, it will be considered to be supply. (whether ₹1,50,000 or ₹2,00,000 is not clear.) but if it is because of contractual agreement, it will not be considered to be supply. E.g. ABC Ltd. has employed Mr. X and as per agreement salary of ₹1,00,000 p.m. shall be given to Mr. X. Also goods of value of ₹ 2,00,000 shall be given free of cost on Diwali in this case no GST is payable on supply of goods valued ₹ 2,00,000.

4. Supply of goods by principal to agent or agent to principal

(i) Any supply of goods **by a principal to his agent** where the agent undertakes to supply such goods on behalf of the principal shall be considered to be supply.

(ii) Similarly any supply of goods by an agent to his principal where the agent undertakes to receive such goods on behalf of the principal shall be considered to be supply.

Example 1: If Mr. X has authorized Mr. Y to sell certain goods and Mr. Y has sold the goods to Mr. Z in his own name, in this case Mr. Y is agent of Mr. X and if goods were supplied by Mr. X to Mr. Y free of cost, it will be considered to be supply but if Mr. Y has sold the goods in name of Mr. X, he will not be considered to be agent.

Example 2: M/s Tintin, a banking company, appoints Mandaar (auctioneer) to auction certain goods. The auctioneer arranges for the auction and identifies the potential bidders.

The highest bid is accepted and the goods are sold to the highest bidder by M/s Tintin. The invoice for the supply of the goods is issued by M/s Tintin to the successful bidder.

In this scenario, the auctioneer is merely providing the auctioneering services with no role played in the supply of the goods. Even in this scenario, Mandaar is not an agent of M/s Tintin for the supply of goods.

Example 3: Gautam, an artist, appoints Gambhir (auctioneer) to auction his painting. Gambhir arranges for the auction and identifies the potential bidders. The highest bid is accepted and the painting is sold to the highest bidder.

In this scenario, Gambhir is not merely providing auctioneering services, but is also supplying the painting on behalf of Gautam to the bidder, and has the authority to transfer the title of the painting on behalf of Gautam. This scenario is covered under Schedule I.

Example 4: A C&F agent or commission agent takes possession of the goods from the principal and issues the invoice in his own name. In such cases, the C&F commission agent is an agent of the principal for the supply of goods in terms of Schedule I. The disclosure or non-disclosure of the name of the principal is immaterial in such situations.

Example 5: Anmol appoints Bholu to procure certain goods from the market. Bholu identifies various suppliers who can provide the goods as desired by Anmol and asks the supplier (Golu) to send the goods and to issue the invoice directly to Anmol.

In this scenario, Bholu has in no way involved himself in the supply or receipt of the goods. Hence, in accordance with the provisions of this Act, Bholu is not an agent of Anmol for supply of goods.

Example 6: Ravi sells agricultural produce by utilizing the services of Kavi who is a commission agent as per the Agricultural Produce Marketing Committee Act (APMC Act) of the State. Kavi identifies the buyers and sells the agricultural produce on behalf of Ravi for which he charges a commission from Ravi.

As per the APMC Act, the commission agent is a person who buys or sells the agricultural produce on behalf of his principal, or facilitates buying and selling of agricultural produce on behalf of his principal and receives, by way of remuneration, a commission or percentage upon the amount involved in such transaction.

In cases where the invoice is issued by Kavi to the buyer, the former is an agent covered under Schedule I. However, in cases where the invoice is issued directly by Ravi to the buyer, the commission agent (Kavi) doesn't fall under the category of agent under schedule I.

(viii) ABC Associates received legal consultancy services from its head office located in Malaysia. The head office has rendered such services free of cost to its branch office. Since ABC Associates and the branch office are related persons, services received by ABC Associates will qualify as supply even though the head office has not charged anything from it.

Conclusion:

1. Import of services without consideration is always exempt except when imported by a person from a related person in the course of business.
2. Import of service for consideration is always taxable except when taken by Individual for personal purpose other than OIDAR services.

Question 4: Write a note on Composite and Mixed supplies.

Answer: Tax liability on composite and mixed supplies. Section 8.

The tax liability on a composite or a mixed supply shall be determined in the following manner, namely:—

- (a) a composite supply comprising two or more supplies, one of which is a principal supply, shall be treated as a supply of such principal supply; and
- (b) a mixed supply comprising two or more supplies shall be treated as a supply of that particular supply which attracts the highest rate of tax.

As per section 2(30), "composite supply" means a supply made by a taxable person to a recipient consisting of two or more taxable supplies of goods or services or both, or any combination thereof, which are naturally bundled and supplied in conjunction with each other in the ordinary course of business, one of which is a principal supply.

As per section 2(74), "mixed supply" means two or more individual supplies of goods or services, or any combination thereof, made in conjunction with each other by a taxable person for a single price where such supply does not constitute a composite supply:

Example

1. Charger supplied alongwith mobile phone is a composite supply.
2. A gift pack comprising of chocolates and sweets is a mixed supply.
3. Suvarna Manufacturers entered into a contract with XYZ Ltd. for supply of readymade shirts packed in designer boxes at XYZ Ltd.'s outlet. In this case, supply of goods, packing materials, transport & insurance is a composite supply wherein supply of goods is principal supply.
4. When a consumer buys a television set and he also gets warranty and a maintenance contract with the TV, this supply is a composite supply. In this example, supply of TV is the principal supply, warranty and maintenance services are ancillary.
5. A travel ticket from Mumbai to Delhi may include service of food being served on board, free insurance, and the use of airport lounge. In this case, the transport of passenger, constitutes the pre-dominant element of the composite supply, and is treated as the principal supply and all other supplies are ancillary.
6. A supply of a package consisting of canned foods, sweets, chocolates, cakes, dry fruits, aerated drink and fruit juices when supplied for a single price is a mixed supply. Each of these items can be supplied separately and is not dependent on any other. It shall not be a mixed supply if these items are supplied separately.
7. A shopkeeper selling storage water bottles along with refrigerator. Bottles and the refrigerator can easily be priced and sold independently and are not naturally bundled. So, such supplies are mixed supplies.

Question 5: Determine whether the following supplies amount to composite supplies.

- (a) A hotel provides 4 days-3 nights package wherein the facility of breakfast and dinner is provided alongwith the room accommodation.
- (b) A toothpaste company has offered the scheme of free toothbrush alongwith the toothpaste.

Answer: Under composite supply, two or more taxable supplies of goods or services or both, or any combination thereof, are naturally bundled and supplied in conjunction with each other, in the ordinary course of business, one of which is a principal supply.

In view of the same,

- (a) since, supply of breakfast and dinner with the accommodation in the hotel are naturally bundled, said supplies qualify as 'composite supply'.
- (b) since supply of toothbrush alongwith the toothpaste are not naturally bundled, said supplies do not qualify as 'composite supply'.

Compute amount of tax credit allowed to Mr. X.

(b) Presume time period is 11 month and 20 days

Solution:

	₹
(a) Total Input Tax (30,00,000 x 18%)	5,40,000
Asset already used for 9 months and 10 days = 4 Quarters	
Less: Tax credit not allowed (5,40,000 x (4 x 5%))	(1,08,000)
Amount of Tax credit allowed	4,32,000

(b) Total Input Tax (30,00,000 x 18%)	5,40,000
Asset already used for 11 months and 20 days = 4 Quarters

Where any registered person who has availed of input tax credit **opts to pay tax under composition scheme** or, where **taxable supply becomes exempt supply**, he shall pay an amount, equivalent to the credit of input tax in respect of stock.

In case of capital goods, remaining tax credit has to be reversed taking the life to be 60 month and part of the month shall be ignored

After payment of such amount, the balance of input tax credit, if any, lying in his electronic credit ledger shall lapse.

For this purpose the applicant has to submit form no. ITC-03

Example 1:

ABC Limited purchased one plant and machinery ₹20,00,000 and paid input tax ₹3,00,000 and it is being used for taxable goods but after one year and 2 months and 10 days, it is used for exempted goods. In this tax credit to be reversed shall be

Remaining life 60 month – 14 month 10 days = 45 months 20 days

Ignore 20 days i.e. 45 months

$3,00,000 / 60 \times 45 = ₹2,25,000$

Example 2:

Mr. X has opted for payment under section 9 and he purchased a plant and machinery ₹ 60,00,000 and paid input tax at a rate of 20% but he has shifted to composition scheme after 38 month and 10 days. Compute amount of tax credit to be reversed by Mr. X.

(b) Presume time period is 11 month and 20 days

(c) Presume time period is 55 month and 21 days.

Solution:

(a) Total Input Tax (60,00,000 x 20%) ₹
12,00,000

Remaining life of the asset = (60 month – 38 month and 10 days)

= 21 month and 20 days i.e. 21 month (part shall be ignored)

Amount of credit to be reversed = $12,00,000 / 60 \times 21 =$ 4,20,000

(b) Total Input Tax (60,00,000 x 20%) 12,00,000

Remaining life of the asset = (60 month – 11 month and 20 days)

= 48 month and 10 days i.e. 48 month (part shall be ignored)

Amount of credit to be reversed = $12,00,000/60 \times 48 =$	9,60,000
(c) Total Input Tax (60,00,000 x 20%)	12,00,000
Remaining life of the asset = (60 month – 55 month and 21 days)	
= 4 month and 9 days i.e. 4 month (part shall be ignored)	
Amount of credit to be reversed = $12,00,000/60 \times 4 =$	80,000

Question 4: Explain Reversal of tax credit in case of supply of capital goods on which tax credit has been taken.

Answer: Payment of tax in case of supply of capital goods on which tax credit has been taken Section 18 (6)/ Rule 44

In case of **supply of capital goods**, on which input tax credit has been taken, the registered person shall pay an amount on the basis of remaining life considering total life to be 60 months however part of the month shall be ignored as per rule 44 or the tax on the transaction value of such capital goods, whichever is higher.

Example

If a plant and machinery was purchased for ₹ 20,00,000 and input tax credit was ₹ 2,00,000 and supplier has sold it after using for one year and 2 months and 15 days, amount to be reversed shall be –

Remaining life shall be = 45 months 15 days i.e. 45 months

Amount to be reversed $2,00,000/60 \times 45 = 1,50,000$

If the plant is sold for ₹ 15,00,000 and rate of GST is 12%, Amount to be reversed shall be ₹1,80,000

If the plant is sold for ₹ 12,00,000 and rate of GST is 12%, Amount to be reversed shall be ₹1,50,000 and not ₹ 1,44,000.

In case of supply of goods, registered person shall report it in GSTR-1.

7. Composition scheme: Goods or services or both on which tax has been paid under section 10

A supplier registered under composition scheme cannot collect tax from its customers. Thus, such supplier issues bill of supply and not a tax invoice. A composition supplier pays a lumpsum tax at a specified rate on its quarterly turnover. Tax paid on goods and/or services under composition scheme is not available as ITC. Since a composition supplier cannot collect any tax on its supplies, from the recipient of its supplies, it is obvious that no ITC can be availed in respect of such supplies by the recipients. Nevertheless, section 17(5) specifically blocks the ITC on inward supplies received by a taxable person from a composition supplier.

8. goods or services or both received by a **non-resident taxable person** except on goods imported by him; Essentially, a non resident taxable person has no fixed place of business in India but he sporadically supplies goods or services in India. ITC in respect of goods that are disposed off by way of gift or free samples is not available. Also, ITC is blocked on lost goods, stolen goods, destroyed goods and goods that are written off. This is because principally, ITC is available only for payment of tax on output supply. If no tax is payable on output supply, ITC on inputs/input services/capital goods relating to such output supply is not eligible. Hence, ITC on gifts and free samples is blocked as no tax is payable on its outward supply. In case of lost/destroyed/stolen written off goods also, ITC is not available as these goods cannot be said to have been used for making a taxable supply.

Question 4: Explain provisions regarding issue of tax invoice in case of continuous supply of goods.

Answer: Invoice in case of Continuous Supply of Goods

As per section 31 (4), in case of continuous supply of goods, where successive statements of accounts or successive payments are involved, the invoice shall be issued before or at the time each such statement is issued or, as the case may be, each such payment is received.

As per section 2(32), "continuous supply of goods" means a supply of goods which is provided, or agreed to be provided, continuously or on recurrent basis, under a contract and for which the supplier invoices the recipient on a regular or periodic basis and includes supply of such goods as the Government may specify.

Invoice in case of Continuous supply of Services

As per section 31 (5), in case of continuous supply of services,—

- (i) where the due date of payment is ascertainable from the contract, the invoice shall be issued on or before the due date of payment.
- (ii) where the payment is linked to the completion of an event, the invoice shall be issued on or before the date of completion of that event.

As per section 31 (6), in a case where the supply of services ceases under a contract before the completion of the supply, the invoice shall be issued at the time when the supply ceases and such invoice shall be issued to the extent of the supply made before such cessation.

As per section 2(33), "continuous supply of services" means a supply of services which is provided, or agreed to be provided, continuously or on recurrent basis, under a contract, for a period exceeding three months with periodic payment obligations and includes supply of such services as the Government may notify.

Example: ABC Cinemas entered into an annual maintenance contract with XYZ Services Ltd. for one year [April-March] for the Air conditioners fitted in their theaters. As per the contract, payment for said services had to be made on 7th April. However, ABC cinemas made the payment on 15th April. Since services provided by XYZ Services Ltd. to ABC Cinemas is a continuous supply of services and due date of payment is ascertainable from the contract, XYZ Services Ltd. had to issue a tax invoice on or before such due date, viz. 7th April.

Example: ABC Caretakers, a registered person, provides the services of repair and maintenance of electrical appliances. On April 1, it has entered into an annual maintenance contract with Mr. X for its Air Conditioner and Washing Machine. As per the terms of contract, maintenance services will be provided on the first day of each quarter of the relevant financial year and payment for the same will also be due on the date on which service is rendered. During the year, it provided the services on April 1, July 1, October 1, and January 1 in accordance with the terms of contract. When should ABC Caretakers issue the invoice for the services rendered?

Answer: Continuous supply of service means supply of any service which is provided, or agreed to be provided continuously or on recurrent basis, under a contract, for a period exceeding 3 months with the periodic payment obligations. Therefore, the given situation is a case of continuous supply of service as repair and maintenance services have been provided by ABC Caretakers on a quarterly basis, under a contract, for a period of one year with the obligation for quarterly payment. In terms of section 31, in case of continuous supply of service, where due date of payment is ascertainable from the contract (as in the given case), invoice shall be issued on or before the due date of payment. Therefore, in the given case, ABC Caretakers should issue quarterly invoices on or before April 1, July 1, October 1, and January 1.

Question 5: Explain provisions regarding issue of invoice in case of goods sent on approval basis.

Answer: Goods sent on approval for Sale or Return

(2) Any registered person who issues a credit note in relation to a supply of goods or services or both shall declare the details of such credit note in the return for the month during which such credit note has been issued but not later than **30th day of November** following the end of the financial year in which such supply was made, or the date of furnishing of the relevant annual return, whichever is earlier, and the tax liability shall be adjusted in such manner as may be prescribed:

The recipient informed the goods supplied were of ₹ 8,00,000 and GST should be 1,60,000, in this case ABC Ltd. will issue a credit note for ₹ 2,00,000 + GST 40,000. ABC Ltd. shall be allowed to reduce its tax liability in the subsequent month by ₹ 40,000 and the recipient shall increase tax liability by ₹ 40,000 because he might have taken ITC of ₹ 2,00,000. If this error is detected on 01.12.2025, no adjustment allowed after 30.11.2025.

Debit Note

(3) Where one or more tax invoices have been issued for supply of any goods or services or both and the taxable value or tax charged in that tax invoice is found to be less than the taxable value or tax payable in respect of such supply, the registered person, who has supplied such goods or services or both, shall issue to the recipient one or more debit notes for supplies made in a financial year containing such particulars as may be prescribed.

(4) Any registered person who issues a debit note in relation to a supply of goods or services or both shall declare the details of such debit note in the return for the month during which such debit note has been issued and the tax liability shall be adjusted in such manner as may be prescribed.

Explanation.— For the purposes of this Act, the expression "debit note" shall include a supplementary invoice.

Example: ABC Ltd. issued an invoice on 10.01.2025 ₹ 10,00,000 + GST 2,00,000 and paid GST to the government on 20.02.2025. The recipient informed the goods supplied were of ₹ 12,00,000 and GST should be 2,40,000, in this ABC Ltd. shall issue a debit note for ₹ 2,00,000 + GST 40,000 and shall pay GST of ₹40,000 to Government in the next month and recipient shall take tax credit of ₹ 40,000 in the subsequent month.

Question 16: Explain E invoicing**Answer:**

All registered persons having turnover more the 5 crores in any financial year from 2017-18 onwards (*Notification no 17/2022-CT dated 01-08-2022*) shall make invoice in form GST INV-01 called 'e-invoice schema' and it will be uploaded on invoice registration portal:

Invoice Registration Portal (IRP)

IRP is the website for uploading/reporting of invoices by the notified persons. Following IRPs have been notified for the purpose of preparation of the e-invoice:

www.einvoice1.gst.gov.in
 www.einvoice2.gst.gov.in
 www.einvoice3.gst.gov.in
 www.einvoice4.gst.gov.in
 www.einvoice5.gst.gov.in
 www.einvoice6.gst.gov.in
 www.einvoice7.gst.gov.in
 www.einvoice8.gst.gov.in
 www.einvoice9.gst.gov.in
 www.einvoice10.gst.gov.in

It will be applicable only in case of B2B supply i.e. it is not applicable in case of B2C invoices. Similar procedure shall be applicable in case of credit note and debit note. The invoice uploaded shall be returned after obtaining an invoice reference number and a QR Code and also the invoice shall be digitally signed. It will also be applicable in case of supply for export or supply to SEZ unit.

The advantages to E invoicing are that the particulars shall be filed in GSTR-1 or E-way bill or GSTR-2B etc. automatically. It will also reduce transcription errors.

Exemption from e-invoicing (Notification no. 13/2020 dated: 21.03.2020)

The entities mentioned below shall be exempt from issue of e-invoicing.

- Special Economic Zone units
- Insurer or banking company or financial institution including NBFC
- GTA supplying services in relation to transportation of goods
- Supplier of passenger transportation service
- Person supplying services by way of admission to exhibition of cinematograph films in multiplex screens
- Government department and a local authority

Thus, above mentioned entities are not required to issue e-invoices even if their turnover exceeds ₹ 5 crore in the preceding financial year from 2017-18 onwards. However in such cases a declaration has to be given as mention below:

'I/We hereby declare that though our aggregate turnover in any preceding financial year from 2017-18 onwards is more than the aggregate turnover notified under sub-rule (4) of rule 48, we are not required to prepare an invoice in terms of the provisions of the said sub-rule'.

Only SEZ units and not SEZ developers are exempt from issuing e-invoices. Thus, SEZ developers whose turnover exceeds ₹ 5 crores in any preceding financial year from 2017-18 onwards are mandatorily required to issue e-invoices.

How e-invoice data is consumed by GST System for generation of e-way bill or populating relevant parts GST Returns?

Invoice Registration Portal sends the e-invoice data along with Invoice Reference Number to the GST System as well as to E-Way Bill System. The GST system will auto-populate them into GSTR-1 of the supplier and GSTR-2B of respective receivers. With source marked as 'e-invoice', IRN and its date will also be shown in GSTR-1 and GSTR-2B.

GST invoice will be valid only with a valid IRN. IRN is different from invoice number. Invoice no. (e.g. ABC/1/2019-20) is assigned by supplier and is internal to business. IRN, on other hand, is a unique reference number (hash) generated and returned by IRP, on successful registration of e-invoice, for instance, 35054cc24d97033afc24f49ec4444dbab81f542c555f9d30359dc75794e06bbe

Question 17: Explain Dynamic QR code.

Answer:

Dynamic QR code

The invoice issued by a registered person (except specified class of persons), whose aggregate turnover in a financial year exceeds ₹ 500 crores, in respect of B2C supplies shall have Dynamic QR code. The purpose of this provision is to enable and encourage digital payments where buyer can scan the dynamic QR code and make payment from mobile wallet directly. Today, many shops have static QR code at the payment counter which is scanned by the buyer, but the buyer has to enter the amount to be paid to the shop in the mobile payment App. The dynamic QR code, on the other hand, will have the payment details and thus 'scan and pay' in one go is possible. This has no relevance or applicability to the e-invoicing in respect to B2B supplies by notified class of taxpayers. Dynamic QR Code will be generated by the seller himself either on the Point of Sale (PoS) machine or the invoice issued.

CLARIFICATIONS

It is clarified that the goods which are taken for supply on approval basis can be moved from the place of business of the registered supplier to another place within the same State or to a place outside the State on a delivery challan and the invoice may be issued at the time of supply of goods. For this purpose, the person carrying the goods for such supply can carry the invoice book with him so that he can issue the invoice once the supply is final [Circular No. 10/10/2017 GST dated 18.10.2017].

Similarly in case of art work sent for supply on approval basis, the supplier can carry invoice book with him alongwith art work and invoice can be issued when the supply becomes final [Circular No. 22/22/2017 GST dated 21.12.2017]

E-WAY BILL

Section 68/Rule 138

E-way bill shall be prepared for every movement of goods by the person causing movement of goods. The person causing movement of goods is the supplier but if the supplier is unregistered and the recipient is registered, person causing movement of goods is the recipient. E-way bill will be prepared on the site e-waybillgst.gov.in by filling in Form No. EWB-01. Part A shall be filled in by the person causing movement of goods and Part B by the transporter. When Part A is filled, the portal shall generate a unique number which will be assigned to the transporter and the transporter shall fill in Part B and after that e-way bill is generated and also the portal will generate the e-way bill number. In case there is movement of goods but there is no supply e.g. stock transfer or the goods sent on approval basis etc., even in such cases also e-way bill shall be generated.

E-way bill shall be generated only if consignment value is exceeding ₹50,000 but in case of movement of goods to job worker and also in case of movement of handicraft goods, e-way bill has to be generated irrespective of the value. Consignment value means the value determined as per section 15 but it will not include value of exempted goods but it will include the amount of GST e.g. if value is ₹48,000 and GST is ₹4,800, in this case e-way bill has to be generated.

Part A has to be filled in by the person who is causing movement of goods but such person can authorise the transporter or the courier or the electronic commerce operator to fill in Part A. If the supplier has his own vehicle, Part A and Part B shall be filled in by the supplier.

For completing the movement of goods i.e., from City Y to City Z, Transporter A now hands over the goods to Transporter B. Thereafter, the goods are moved to the destination i.e. from City Y to City Z by Transporter B. In such a scenario, only one e-way bill would be required. Part A can be filled by the consignor and then the e-way bill will be assigned by the consignor to Transporter A. Transporter A will fill the vehicle details, etc. in Part

B and will move the goods from City X to City Y. On reaching City Y, Transporter A will assign the said e-way bill to the Transporter B. E-way Bill in case of 'Bill To Ship To' Model

In a "Bill To Ship To" model of supply, there are three persons involved in a transaction, namely:

'A' is the person who has ordered 'B' to send goods directly to 'C'.

'B' is the person who is sending goods directly to 'C' on behalf of 'A'.

'C' is the recipient of goods.

In this complete scenario. two supplies are involved and accordingly two tax invoices are required to be issued:

Invoice -1: which would be issued by 'B' to 'A'.

Invoice -2: which would be issued by 'A' to 'C'.

It is clarified that as per the CGST Rules, either A or B can generate the e-Way Bill but it may be noted that only one e-Way Bill is required to be generated [Press Release dated 23.04.2018]

If they have opted for forward charge, reverse charge shall not be applicable for them. Declaration shall be given in the manner given below:

I/we have taken registration under GST and have exercised the option to pay tax on services of GTA in relation to transport of goods supplied by us during the Financial Year _____ under forward charge.

Reverse charge shall be applicable only if GTA has given services to any of the following persons. Further under reverse charge tax shall be paid by the recipient of GTA service and Recipient of GTA service is the person who pays/is liable to pay freight for transportation of goods by road in goods carriage, located in the taxable territory.

- (a) any factory
- (b) any society
- (c) any co-operative society

Big Carriers have communicated to ABC Ltd. that GST on the services provided by them is required to be paid by ABC Ltd. under reverse charge.

You are required to critically examine stand taken by each of the two parties to arrive at the final conclusion.

Solution: In case of service provided by way of sponsorship to any body corporate or partnership firm, person liable to pay GST is the person receiving such service i.e. reverse charge is applicable, but if services are given to any other person, reverse charge is not applicable.

In the given case sponsorship service is provided to an individual, the person liable to pay GST will be service provider i.e., 'Taal Academy'. Further, since the status of service receiver is relevant for determining as to who would pay GST, status of service provider is immaterial. Examples on RCM for renting of motor vehicle

Clarification

Processed Tea and coffee

Tea used for making the beverage, such as black tea, green tea, white tea is a processed product made in tea factories after carrying out several processes, such as drying, rolling, shaping, refining, oxidation, packing etc. on green leaf and is the processed output of the same. Thus, green tea leaves and not tea is the "agricultural produce" eligible for exemption available for loading, unloading, packing, storage of agricultural produce. Same is the case with coffee obtained after processing of coffee beans.

Jaggery

Similarly, processing of sugarcane into jaggery changes its essential characteristics. Thus, jaggery is also not an agricultural produce.

Pulses

Pulses commonly known as dal are obtained after dehusking or splitting or both. The process of dehusking or splitting is usually not carried out by farmers or at farm level but by the pulse millers. Therefore pulses (dehusked or split) are also not agricultural produce. However, whole pulse grains such as whole gram, rajma etc. are covered in the definition of agricultural produce.

Custom milling of paddy into rice

Milling of paddy is not an intermediate production process in relation to cultivation of plants. It is a process carried out after the process of cultivation is over and paddy has been harvested. Further, processing of paddy into rice is not usually carried out by cultivators, but by rice millers. Milling of paddy into rice also changes its essential characteristics.

Therefore, milling of paddy into rice cannot be considered as an intermediate production process in relation to cultivation of plants for food, fibre or other similar products or agricultural produce.

In view of the above, it is clarified that milling of paddy into rice is not eligible for exemption. [Circular No. 19/19/2017 GST dated 20.11.2017]. However as a special case services by way of loading, unloading, packing, storage or warehousing of rice has been exempted. **[E-24]**

Services by way of storage or warehousing of cereals, pulses, fruits and vegetables. **(E-24B)**

Educational Services (E-66)

(a) Services provided by an educational institution to its students, faculty and staff.

(b) Services provided to an educational institution relating to admission, or conduct of examination.

"Educational institution" means an institution providing services by way of,—

- (i) pre-school education and education up to higher secondary school or equivalent;
- (ii) education as a part of a curriculum for obtaining a qualification recognised by any law for the time being in force;
- (iii) education as a part of an approved vocational education course

Clarification

Private ITIs qualify as an educational institution if the education provided by these ITIs is approved as vocational educational course. It implies that services provided by a private ITI only in respect of designated trades notified under Apprenticeship Act, 1961 are exempt from GST.

Services other than designated trades are liable to GST.

(c) services to an educational institution, by way of,—

- (i) transportation of students, faculty and staff;
- (ii) catering, including any mid-day meals scheme sponsored by the Central Government, State Government or Union territory;
- (iii) security or cleaning or house-keeping services performed in such educational institution;

Educational Institution for the purpose of point (i),(ii),(iii) means an institution providing services by way of pre-school education and education up to higher secondary school or equivalent.

Example: Service provided by a private transport operator to Scholar Boys Higher Secondary School in relation to transportation of students to and from the school, shall be exempt from GST.

(d) Services received by way of supply of online educational journals or periodicals to an educational institution other than an institution providing services by way of—

- (i) pre-school education and education up to higher secondary school or equivalent; or
- (ii) education as a part of an approved vocational education course;

Example: Delhi University has taken online services of educational journals and periodicals from one university in USA and paid US dollar 1,00,000, in this case it is exempt from GST but if such services have been taken by a Pre School, it will be taxable.

(e) Services by way of giving on hire motor vehicle for transport of students, faculty and staff, to a person providing services of transportation of students, faculty and staff to an educational institution providing services by way of pre-school education and education upto higher secondary school or equivalent. Clarification

(i) College Hostel Mess services

Educational institutions generally have mess facility for providing food to their students and staff. Such facility is (i) either run by the institution/ students themselves or (ii) is outsourced to a third person.

If the catering services is one of the services provided by an educational institution to its students, faculty and staff and the said educational institution is covered by the definition of 'educational institution' as given above, then the same is exempt.

If the catering services, i.e., supply of food or drink in a mess or canteen, is provided by anyone other than the educational institution, i.e. the institution outsources the activity to an outside contractor, then it is a supply of service to the concerned educational institution and attracts GST [Circular No. 28/02/2018 GST dated 08.01.2018].

Note: It may be noted that said services when provided to an educational institution providing pre-school education or education up to higher secondary school or equivalent are exempt from tax.

(ii) The Central and State Educational Boards shall be treated as 'Educational Institution' for the limited purpose of providing services by way of conduct of examination to the students.

(iv) Maritime courses approved by DG Shipping

Maritime Training Institutes and their training courses are approved by the Director General of Shipping which are duly recognised under the provisions of the Merchant Shipping Act, 1958.

Therefore, Maritime Training Institutes are educational institutions and the courses conducted by them are exempt [Circular No. 117/36/2019 GST dated 11.10.2019].

(v) Services provided by an educational institution by way of conduct of entrance examination against consideration in the form of entrance fee is also exempt from GST.

Example: 'Dharam Institute of Technology' (DIT), a private engineering college in M.P., offers post graduate engineering programmes. All the engineering courses including the distance learning post graduate engineering programme offered by DIT are recognised by the law [The All India Council for Technical Education (AICTE)]. Since DIT imparts education as a part of a curriculum for obtaining a qualification recognised by the Indian law, the same is an educational institution.

Example: 'Littleways Public School' is a school located in Tamil Nadu. The school has two branches – one is a pre-school and another is a higher secondary school affiliated to CBSE. A pre-school and a higher secondary school are educational institutions. Thus, Littleways Public School qualifies as an educational institution.

Example: 'Kaladrishti ITI, Gorakhpur is engaged in providing skill development courses in other than designated trades notified under the Apprentices Act, 1961. Since courses offered by Kaladrishti ITI are not in designated trades notified under the Apprentices Act, 1961, education provided by it is not approved as vocational educational course as defined above. Resultantly, it doesn't qualify as an educational institution.

Example: Little Millennium – a pre school in outskirts of Mumbai – has subscribed the online journals on child development and experiential learning. Services of supply of online educational journals or periodicals provided, *inter alia*, to an institution providing services by way of preschool education are not exempt.

Example: SM Transporters has provided services of transportation of students and faculty from their residence to school and back, to Pathwheels School - a higher secondary school. Services of transportation of students, faculty and staff provided, *inter alia*, to an institution providing services by way of education up to higher secondary school or equivalent are exempt.

Example: Shiksha College, offering degree courses, has to conduct its half yearly examination in November. For this purpose, it has paid the honorarium to paper setters and examiners (not on the rolls of Shiksha College) for their services. Further, it availed the printing services for printing the question papers (paper and content are provided by Shiksha College) for conducting examination. Services provided to an educational institution relating to admission to, or conduct of examination by, such institution are exempt. Therefore, services of paper setters and examiners and printing services availed by Shiksha College are exempt.

Example: Gyaani Public School – a higher secondary school – has hired Suvidha Services Ltd. for security and housekeeping services in the school. Security and housekeeping services provided within the premises of, *inter alia*, a higher secondary school are exempt. Therefore, said services provided by Suvidha Services Ltd. are exempt.

The school subsequently hired Suvidha Services Ltd. for providing the security and housekeeping services at School's Annual Day function organised in an auditorium outside the school campus. Security and housekeeping services provided to Gyaani Public School for School's Annual Day function organized outside the school campus will be taxable as only the security and housekeeping services performed **within the premises** of the higher secondary school are exempt.

Question 11: Explain Concept of GST/ GST – A Cure for Ills of Existing Indirect Tax.

Answer: The basic concept of GST is as given below:

- GST is a value added tax levied on manufacture, sale and consumption of goods and services.
- GST offers comprehensive and continuous chain of tax credits from the producer upto the retailer level thereby taxing only the value added at each stage of supply chain.
- The supplier at each stage is permitted to avail credit of GST paid on the purchase of goods and/or services and can set off this credit against the GST payable on the supply of goods and services to be made by him. Thus, only the final consumer bears the GST charged by the last supplier in the supply chain.
- Since, only the value added at each stage is taxed under GST, there is no multiple tax or cascading of taxes under GST system. GST does not differentiate between goods and services and thus, the two are taxed only once.

Question 12: Explain Seamless flow of credit.

Answer: Seamless flow of credit

Since GST is a destination based consumption tax, revenue of SGST ordinarily accrues to the consuming States. The Inter - State supplier is allowed to set off the available credit of IGST, CGST and SGST/UTGST (in that order) against the IGST payable on inter -State supply made by him.

The buyer is allowed to avail the credit of IGST paid on Inter-State purchase made by him. Thus unlike the earlier scenario where the credit chain used to break in case of inter - State sales on account of non - VATable CST, under GST regime there is a seamless credit flow in case of inter - State supplies too.

Question 13: Explain Features of Indirect Taxes.

Answer: Features of Indirect Taxes

1. **An important source of revenue:** Indirect Taxes are a major source of tax revenues for Governments worldwide and continue to grow as more countries move to consumption oriented tax regimes. In India, Indirect taxes contribute more than 50% of the total tax revenues of Central and State Governments.
2. **Shifting of burden:** There is a clear shifting of tax burden in respect of indirect taxes. For example, GST paid by the supplier of the goods is recovered from the buyer by including the tax in the cost of the commodity.
3. **No perception of direct pinch:** Since, value of indirect taxes is generally inbuilt in the price of the commodity, most of the time the tax payer pays the same without actually knowing that he is paying tax to the Government. Thus, tax payer does not perceive a direct pinch while paying indirect taxes.
4. **Inflationary:** Tax imposed on commodities and services causes an all-round price spiral. In other words, indirect taxation directly affects the prices of commodities and services and leads to inflationary trend.
5. **Wider tax base:** Unlike direct taxes, the indirect taxes have a wide tax base. Majority of the products or services are subject to indirect taxes.
6. **Promotes social welfare:** High taxes are imposed on the consumption of harmful products (also known as 'sin goods') such as alcoholic products, tobacco products etc. This not only checks their consumption but also enables the State to collect substantial revenue.
7. **Regressive in nature:** Generally, the indirect taxes are regressive in nature. The rich and the poor have to pay the same rate of indirect taxes on certain commodities of mass consumption. This may further increase the income disparities between the rich and the poor.

Question 14: Explain what is tax?

Answer: A tax may be defined as a "pecuniary (monetary) burden laid upon individuals or property owners to support the Government, a payment exacted by legislative authority. A tax "is not a voluntary payment or donation, but an enforced contribution, exacted pursuant to legislative authority".

In simple words, tax is nothing but money that people have to pay to the Government, which is used to provide public services.

Question 15: Explain Direct tax and Indirect Tax.**Answer: Direct Tax / Indirect Tax**

If any particular tax is paid by a person and also its incidence is on that person, it is called direct tax like income tax e.g. If Mr. X has paid income tax of ₹5,00,000, it will be called direct tax because it is paid by Mr. X and also its incidence is borne by Mr. X.

If any tax is paid by one person but its incidence is on some other person, it will be called indirect tax like **Central GST, State GST, Integrated GST, UT GST etc.**

Its incidence is borne by the consumers who ultimately consume the product or the service, while the immediate liability to pay the tax may fall upon another person such as a manufacturer or provider of service or seller of goods e.g. If ABC Ltd. has manufactured a product and it is sold for ₹20,00,000 and CGST plus SGST of ₹2,00,000 has been recovered, the GST so collected shall be called indirect tax because the payment was made by a company but it is ultimately borne by the buyer.
